

Amendment to the Claims

This listing will replace all prior versions, and listings, of the claims in the application:

Listing of Claims:

Claim 1 (Currently amended): A material for vibration-absorbable ~~mounts~~, mounts that has a loss tangent ($\tan \delta$) of at least 0.5, which comprises a cured product of a composition comprising (A) an acrylic polymer having at least one alkenyl group capable of undergoing hydrosilylation reaction, (B) a hydrosilyl group-containing compound and (C) a hydrosilylation catalyst as essential components.

Claim 2 (Currently amended): A material for vibration-absorbable mounts according to Claim 1, wherein a liquid acrylic polymer having a number average molecular weight M_n of 500 or more and a molecular weight distribution (M_w/M_n) of 1.8 or less is used as ~~Component~~ component (A) of the composition.

Claim 3 (Original): A material for vibration-absorbable mounts according to Claim 1, wherein the cured product of the composition has a Duro A hardness of 45 or less.

Claim 4 (Currently amended): A material for vibration-absorbable mounts according to Claim 1,

~~or 3~~, wherein 100 parts by weight or less of a reinforcing agent or filler is added to the composition on the basis of 100 parts by weight of the sum total of components ~~Components~~ (A), (B) and (C).

Claim 5 (Canceled)

Claim 6 (Currently amended): A material for vibration-absorbable mounts according to Claim 1, ~~for use~~ which comprises an article that is in a contact with electronic components or electronic assemblies. ~~state with electric and electronic parts of their units as fixed thereto.~~

Claim 7 (Currently amended): A material for vibration-absorbable mounts according to Claim 1 ~~for use as~~ comprising a vibration-absorbable mounts mount for a hard disc drive. ~~HDDs as mounted on automobiles.~~

Claim 8 A material for vibration-absorbable mounts ~~for HDDs as mounted on automobiles~~ according to Claim ~~9~~, 7, wherein the material for vibration-absorbable mounts is ~~used as~~ fixed to a cover of box housing the hard disc drive. ~~an HDD-encasing box.~~

Claim 9 (New): A material for vibration-absorbable mounts according to Claim 7 comprising a vibration-absorbable mount for a hard disc drive that is mounted in an automobile.

Claim 10 (New): A material for vibration-absorbable mounts according to Claim 3, wherein 100 parts by weight or less of a reinforcing agent or filler is added to the composition on the basis of 100 parts by weight of the sum total of components (A), (B) and (C).
